5	M/s Inspirisys Solutions Ltd	Pre-Qualification/Eligibility Criteria	22	Point No.2: The bidder shall be in business for the last 5 years and shall have experience in the following areas: Supply and Commissioning of atleast one AI based Clusters/HPC in last 5 years.	EdCIL is empanelling System Integrators, where the key capability is to design, integrate, commission and support complex enterprise compute infrastructure. Established SIs may have significant experience in relevant large-scale mission-critical RISC/Unix and enterprise compute projects but may not have AI/HPC-specific credentials in their own name. Restricting eligibility only to bidders having direct AI/HPC experience may limit participation of capable and experienced System Integrators. We therefore request EdCIL to modify this clause as; The bidder shall be in business for the last 5 years and shall have experience in the following areas: Supply and Commissioning of atleast one AI based Clusters/HPC or Enterprise RISC/Unix/High-End Compute Infrastructure in last 5 years.	AI/GPU Based On-premises infrastructure setup will be accepted
